LISTA AS A PARTNER

LISTA offers organisation. With success, experience and a systemic approach. For more than 75 years, we have offered our customers concepts for more organised and efficient working. Because we offer more than just a high-quality product, competent advice and

a wide range of services: the LISTA system creates perfect interlocking solutions for smooth work processes. And this makes us a leading partner in the area of workspace and storage equipment worldwide.

BENEFITS AT A GLANCE

-  **Comprehensive range**
from A for access control to W for workstation systems
-  **Tailor-made solutions**
for customers with specific needs
-  **Wide range of services**
such as training, assembly, labelling etc.
-  **Modular system**
all products can be freely combined
-  **Expert planning**
including visualisation with LISTA Draw
-  **Worldwide distribution and service network**
for customer service without borders
-  **Maximum flexibility**
with a choice of colours, configuration options and more
-  **10-year guarantee**
unique in the industry
-  **First-class references**
from more than 100,000 prestigious companies worldwide

OVERVIEW OF LISTA ACCESS SOLUTIONS

KEY LOCK Proven standard locking system

- KEY Lock, our standard locking system with replaceable cylinders.
- Manual opening/locking with key
 - Simultaneously lockable for multiple, as well as different, products with only one key or separately lockable with several keys
 - Key availability guaranteed for years

CODE LOCK The solution with number combination

- When locking with CODE Lock, the key is replaced by a number combination. A simple four to six-digit code is all that is needed to open the product.
- Manual opening/locking with number code
 - Lock readout and programming with LISTA Access software (option)

RFID LOCK Ready for the future: the solution with RFID badge

In addition to the CODE Lock, the LISTA RFID Lock enables opening and locking via standard radio-frequency identification (RFID). It consists of a transponder in the lock and standard mobile RFID badges/cards/tags.

- **Manual opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Lock readout and programming with LISTA Access software (option)

AUTO LOCK The ultimate solution: automatic opening and locking

The LISTA AUTO Lock features the same functionality as our RFID Lock, however opening and locking take place automatically. With LISTA Access software (option), time profiles can also be programmed in the lock or on the user for time-limited access for increased security.

- **Automatic opening/locking** via RFID badge or number code
- Most standard RFID badges/cards/tags can be used
- Locks automatically after a preset time or at the push of a button
- Lock readout and programming with LISTA Access software (option)
- Time-limited access programmable via LISTA Access software (option)

FURNITURE

INOX

These cabinets, tables and shelves are produced in stainless steel, thanks to the characteristics of the raw material used, they are particularly resistant to corrosion and easy to clean.

MAXIMUM HYGIENE

Particularly suitable for contact with food, the cabinets, table and shelves are made of stainless steel and are ideal for use in all environments where maximum hygiene and lack of corrosion are indispensable, such as industries and laboratories for production and food processing, industrial kitchens, refrigeration cells, chemical-pharmaceutical laboratories, hospital departments, laundries and environments particularly exposed to bad weather.

ELEMENTS OF VALUE

Furthermore, thanks to their pleasant appearance, the cupboards, tables and shelves which are in stainless steel can be used as valuable elements in domestic and commercial furnishings.

AUTOMATIC VERTICAL STORAGE - INTERNAL BAY

Vertical storage is the intelligent answer for those looking for a fully flexible storage solution. All types of materials and products such as loose parts, containers (boxes, trays and recipients), small parts, spare parts, reels, bottles etc. can be stored in your vertical storage system. It consists of a pre-assembled base that allows easy handling and quick installation. This means that the storage system can be ready at your production facility within 48 hours. The WMS software makes it easy to integrate the storage system into the workflow and is designed to interface with all types of ERP systems.

SPILL PALLETS WITH INTERIOR IN POLYETHYLENE FOR CISTERNS 1000 LT

ITEM: P6819

Watertight carbon steel cistern in accordance with the UNI 10025 standard with polyethylene inner lining for storage under a 1000 Lt it is also possible to applicate a decanting and dosing system for completely emptying the cistern. Used to protect groundwater in the event of accidental spills of dangerous and polluting substances, this secondary containment system is able to prevent and reduce potentially polluting situations. Technical data plate and safety labeling according to Legislative Decree n. 81 of 9 April 2008 Execution according to Welding Procedure Specification according to UNI EN 15609-1. Colour RAL5010.

Tech. Code		P6819C1
GR80	Euro	(1304,00)
Dimension	mm	1085 x 1655 x 730
Capacity		1 cistern of 1000 L
Collection volume	L	1000

OUTDOOR STORAGE DEPOSITS CISTERNS OF 1000 LT

ITEM: P6826

Storage deposits suitable for the outside storage of 1000 Lt, consisting of side walls with lamellare air intakes to guarantee air exchange and a lid supported by gas shock absorbers with the possibility of padlocking to protect the contents by unauthorized people. Storage basin composed of a galvanized pressed grid, 44x33 mesh, 30mm height. UNI EN ISO3834-3: 2006 ANNEX V of the legislative Decree N.81/08. Colour blue RAL 5010.

Tech. Code		P6826C1
GR80	Euro	(4973,00)
Dimension	mm	1350 x 1660 x 1900
Capacity		1 cistern of 1000 lt
Collection volume	lt	1000
Material		S235JR

OUTDOOR STORAGE DEPOSITS

ITEM: P6829

To facilitate loading and unloading operations the cover of the container is supported by gas shock-absorbers. The sturdiness of the cover and doors (can be padlocked) protects the contents from unauthorised persons. Fitted with an aeration grille. Colour blue RAL 5010.

Tech. Code		P6829F2	P6829F4
GR80	Euro	(1923,00)	(2158,00)

Capacity		2 fusti da 200 L	4 fusti da 200 L

INTERLOCKING CONTAINMENT STAND

ITEM: P6920

Interlocking containment stand in reinforced plastic. Grid with a high bearing capacity. Drip proof interlocking system on the long and short sides for high speed modularity. 80 l capacity.

Tech. Code		P6920F2
GR80	Euro	(248,00)
Dimension	mm	1320 x 660 x 150
Capacity	L	80
Load capacity	kg	1136

POLYETHYLENE STORAGE DEPOSITS

ITEM: P6950

Made of ecological medium density polyethylene LLDPE through rotational molding procedure. Resistant to corrosion against acids, alkalis, oils. 200 ltr drums or 1000 ltr ibc's storage.

Equipped with aeration grids printed on doors, to avoid gas saturation into the box.

Monolithic structure - no welding, solid construction, low shape for an easy access during loading and picking operations, doors opening at 180°, possibility to fix the box on the ground by specific cables and hooks (optional). The deposit must be moved only empty, doors equipped with handles for opening and closing with lever padlock. Can be moved using a forklift truck due to the particular shaping of the bottom, direct pallet positioning into the deposit, pallet not include.

Tech. Code		P6950F2	P6950F4
GR80	Euro	(2040,00)	(2330,00)
Dimension	mm	1550 x 1000 x 1940	1540 x 1600 x 2000
Capacity		2 fusti da 200 L	4 fusti da 200 L
Collection volume	L	240	470

POLYETHYLENE STORAGE DEPOSITS

ITEM: P6955

Made of ecological medium density LLDPE polyethylene through rotational. Resistant to corrosion by numerous acids alkalis oils. Storage of 1000 liter tanks. Equipped with ventilation grids printed on doors to avoid gas accumulation inside the box. Monolithic structure without welding, door opening at 180°, possibility of anchoring to the ground by means of cables fixed to optional bolted eyelets in suitable holes. The boxes are equipped with handles for opening and closing with a padlockable lever. Opening and closing Movable (when empty) by forklift. Direct support of the pallet in the containers, pallet not supplied.

Tech. Code		P6955C1
GR80	Euro	(2915,00)
Dimension	mm	1540 x 1600 x 2350
Capacity		1 x 1000 L tank
Collection volume	L	1080

CONTAINERS FOR POLLUTING AND FLAMMABLE SUBSTANCES

ITEM: P6960

Containers are the right solution for storage of polluting and flammable substances. Suitable for the storage of dangerous substances even in small containers if expanded with optional, shelving collection volume 300/1000 lt.

Optional accessories:

GR - Ventilation grid for storage of flammable products.

SC - Internal shelving composed of 3 shelves W=2000mm x D=500mm for storing small containers.

RA - Access ramps with manual trolleys.

On request other models and accessories.

STORAGE DEPOSIT FOR TWO 1000 L TANKS

ITEM: P6962

The outside of the deposit is covered with galvanized metal sheets and is used to store two 1000 litre tanks outdoors. It consists of a steel collection tank that has been hand-painted with a two-component epoxy paint and finished with high solid acrylic paint, colour RAL 9006. Floor made from hot galvanized metal, walls and roof made from galvanized steel profiles and high relief galvanized corrugated sheet cladding, key lock. Can be handled using a forklift truck with fork extensions and adequate lifting capacity.

Complies with the following European directives: 2009/104/EC and Italian legislative decree 81/2008 annex V.

Optional accessories:

- Optional insulating roof
- Optional ventilation grilles for storing inflammable materials
- Optional acid-resistant lining for collection tank
- Supplied assembled.

Tech. Code		P6962C2
GR80	Euro	(6837,00)
Int. dimension	mm	3380 x 1340 x 2200
Ext. dimension	mm	3500 x 1520 x 2600
Capacity		2 collection tanks 1000 l
Collection volume	L	1000
Useful depth	mm	1655
Features		Hinged door

OUTDOOR STORAGE DEPOSITS FOR 1000 L TANKS

ITEM: P6961

Outdoor storage deposits without thermal insulation, suitable for storing two 1000 litre tanks. Designed for use with a special raised and inclined shelf that allows the contents to be transferred or stored. The cabinet is fitted with safety hooks to keep the doors in the open position and a 1000 litre collection tank. Galvanized grating support surface that can be removed for cleaning the collection tank, door with key lock, safety hooks to keep the doors in the open position, optional ventilation grilles for the storage of flammable materials with an opening 1/30th of the surface area (**Ministry of the Interior Circular no. 8 of 17/04/1985**). Optional stainless steel or acid resistant coated collection tank for corrosive substances. Complies with the following national directives: **Legislative decree 81/2008 annex V** Occupational Health and Safety act

Optional accessories:

- Ventilation openings for flammable materials
- Inclined support

Tech. Code		P6961C2
GR80	Euro	(7373,00)
Ext. dimension	mm	2875 x 2020 x 2345
Capacity		2 collection tanks 1000 l
Collection volume	L	1670
Capacity	kg	1000

CONTAINER MODULES WITH THERMAL INSULATION

ITEM: P6963

Outdoor Container Module consisting of a collection cistern in painted steel with a bi-component polyurethane cycle. The following article has a hot-galvanized grid base and side and roof composed of sandwich panels in class 0 mineral wool sp. 50 mm / m interposed between galvanized sheets, fire reaction class A2 s1-d0. Model with two-leaf door and key lock closure and roof made with built-in-drain channels to drain rainwater sideways.

The container can be moved with a forklift equipped with an extended fork and of adequate capacity, it is also supplied assembled.

Internal-external painting with epoxy primer and bi-component polyurethane varnish in WHITE RAL 9016 colour. Complies with the consolidated text on work safety following national directives: Legislative Decree 81/2008 Annex V.

Tech. Code		P6963C	P6963NOC

SHUTTLES FOR OVERHEAD MAINTENANCE

ITEM: P7007

Complete with:

- Tech net side to protect the operator, equipped with a gas cylinder which facilitates opening and closing, simplifying also the product storage when not in use
- Automatically lockable access door with anti-vibrating stop, opening only inwards and equipped with safety lock
- Rubber anti-slip and anti-static rubber shelf
- Polyester tool holder anti-crush tank
- Safety device to avoid accidental slippage of the forks
- Coupling for safety belt use

Equipped with

- Maintenance and user manual with start-up instruction in accordance with D.Lgs. 9 April 2008 n. 81, point 3.1.4 attachment VI
- Advertising panels to prevent major hazards
- Metal plate reporting equipment technical data

BIG BAG HOLDER

ITEM: P7010

Big Bag is a metallic structure designed to maximise bag filling processes. Big Bag holders while keeping the bulk bags well open and stretched over its entire length, they're structured to facilitate waste discharge and storage operations. Essential in order to define a waste handling area within the warehouse premises. They can be easily and safely handled with a fork lift thanks to their convenient fastening clamps.

Struts can be taken off and stored inside the unit so to reduce dimensions and facilitate handling.

MODULAR PADS

ITEM: P7220

The most resistant auto-laying PVC tile. Interlocking laying without the use of glues or fittings. Ideal for industrial application.

APPLICATIONS: Industries, garages, depots, multi-purpose halls, exhibition halls, underground railway stations, airports, ships, sport clubs, laboratories, typographies; public places, platforms, etc.
Granular finish, available in 10 colours with customisable graphics - Resistant - Fire-proof - Anti-slip - Anti-scratch - Phono-absorbent - Washable - Carriageable - Antistatic - Resistant to oil and acids.

Tech. Code		P7220G68
GR80	Euro	18,65
Dimension	mm	510 x 510
Thickness	mm	7
Weight	kg/m²	9,2
Colour		Gray

RAMPS - DESCENTS

ITEM: P7225

Descendant terminal finish for P7220 platforms.

Tech. Code		P7225G68G	P7225G68N

MODULAR PADS WITH RICE GRAIN FINISH

ITEM: P7421

Modular pads that guarantee excellent resistance and durability, with a high anti-slip factor (R12) which makes it perfect for workplaces, even with liquid or oil spills, absorbs shocks and noise and has anti-fatigue properties. It is applied by interlocking without the need for glues or fittings and withstands even extreme temperatures. With rice grain finish, available in black.

Resistant - Fire resistant - Non-slip (R12) - Anti-scratch - Washable - Anti-fatigue - Sound absorbing

Tech. Code		P7421ULT
GR80	Euro	16,07
Dimension	mm	520 x 520
Thickness	mm	14
Weight	kg/m²	2,38
Colour		Black

RAMPS-DESCENT WITH RICE GRAIN FINISH

ITEM: P7422

Downfeeds terminal finish for P7421 pads. Grey colour available on request.

Tech. Code		P7422ULTG	P7422ULTN

Dimension	mm	60 x 60	60 x 60
Weight	kg	0,025	0,025
Colour		Yellow	Black

MODULAR PADS

ITEM: P7430

The honeycomb design pad for uneven areas made from recycled PVC is an interlocking tile suitable for both indoor and outdoor environments. Produced using the latest generation polymers, this tile is ideal for making existing floors safe, even if uneven: flexible and adaptable. It can be laid quickly and easily on lawns, sown areas or any indoor and outdoor rigid or cement surface. Particularly safe for work areas as its honeycomb design, which allows the liquids to drain under the walkway, gives it a high slip resistance. The tile also has anti-fatigue properties. It requires no maintenance and can withstand all climatic conditions.

Tech. Code		P7430ULT
GR80	Euro	9,27
Dimension	mm	500 x 500
Thickness	mm	16
Weight	kg/m ²	1.1
Colour		Black

RAMPS - DOWNFEEDS

ITEM: P7435

Ramps with rough slip-resistant finish for P7430 pads. This type of pad requires male and female ramps.

Tech. Code		P7435ULTG	P7435ULTGF
GR80	Euro	10,82	10,82
Dimension	mm	490 x 60	490 x 60
Colour		Yellow	Yellow
Weight	kg/m ²	0,21	0,18
Interlocking		Male	Female

ACCESS ANGLES

ITEM: P7440

Universal angle finishes for P7430 pad.

Tech. Code		P7440G50G
GR80	Euro	10,82
Dimension	mm	60 x 60
Weight	kg	0,026
Colour		Yellow

MODULAR PADS

ITEM: P7500

- Low density polyethylene
- Insulating and resistant to solvents, acids and grease
- Slip and shock absorption
- Docking in both directions
- Colour: grey
- Suitable to cover any surfaces and work areas both internal and external

MODULAR PADS IN POLYETHYLENE

ITEM: P7510

The modular pads are made of insulating polyethylene, easy to put in place thanks to the hooking system between the various elements. They allow to create non-slip floors of any size. Tested for a working voltage up to 3 kV, have a discharge voltage of 20 kV, a yield strength of 840 kN per square meter. The workload is 210-280 kN per square meter. They can be supplied with lateral and angular ramps for even more functional floors.

- Standard colour: Green
- Colours on request: black, neutral, red, blue and light brown (minimum pack of 10 pieces)
- Ramps and angles: Black polyethylene

Tech. Code		P751050X50GR	
GR80	Euro	17,90

MODULAR RAMP IN POLYPROPYLENE

ITEM: P7515

A full modular floor system that guarantees perfect adherence to the surface. Also available in self-extinguishing and conductive versions. It features a working voltage of 3 kV max. It has a yield load of approximately 710 kN per sq.m and a work load of 180-240 kN per sq.m. It comes complete with a side and corner joint for even more functional floor paving.

- Standard colour: Green
- Colour on request: light brown (minimum packaging 10 pieces)
- Angle ramp: Polypropylene colour black

Tech. Code		P751550X50P	
GR80	Euro	26,10

479 Cushion Trax®

Bestselling anti-fatigue mat with ergonomic benefits derived from a 14-mm thick worker platform comprised of a long wearing top surface laminated onto a resilient microcellular vinyl based for maximum durability, comfort and insulation from hard floors and vibrations.

Diamond plate pattern provides traction while allowing easy twist turns.

Bevelled edges on all four sides to minimize the risk of tripping.

ANTI-FATIGUE MATS PVC

ITEM: P7630

The anti-fatigue mat has a hard-wearing 14 mm thick base consisting of a wear-resistant surface bonded to an elastic microcellular vinyl backing to ensure maximum durability, comfort, cushioning and the absence of vibration. The rhombus structure provides traction and allows it to bend more easily. The design and the composition of the materials make it the most versatile solution for fatigue relief in both static and dynamic working positions. R10 slip rating according to standards DIN 51130 and BGR181. With RedStop™ slip-resistant backing to prevent sliding. Available with yellow borders along the sides to comply with OSHA 1910-144 directive and bevelled edges on all four edges to minimize risk of tripping. Free from DOP, DMF, ozone depleting substances, silicone or heavy metals.

ANTI-FATIGUE MATS ESD

ITEM: P7730

Anti-fatigue mats ESD, the ergonomic benefit derives from a 9.4 mm thick walkable surface, made of anti-static dissipative vinyl sponge that reduces fatigue and the accumulation of electrostatic charges. The gravel texture provides non-directional grip and is easy to clean. An optional 10mm plug connected to the mat can be connected to an optional ground wire.

BINS FOR OILY WASTE

ITEM: P7700

Pedal bins for oily waste with lid that stays closed when the bin is not in use. Designed to isolate the contents from sources of fire and limit the oxygen available. Durable powder-coated steel construction provides high chemical resistance. Swinging carrying handle for easy transport. FM approved, meets OSHA requirements. Meets TÜV. certification requirements. Colour Red.
